Sustainability Package [DSP]

No-cost option

The Sustainability Package combines the Vegan Package including:

- Multifunction sports steering wheel in ARTICO man-made leather
- White open-pore natural fibre honeycomb design sustainable trim

The globally renowned ‘The Vegan Society’ has evaluated and certified as vegan all soft-touch surface materials in the Vegan Package for the interior of the electric C-Class – from the seat upholstery to headliner, from pillar and door panels to carpeting. Customers can be assured that the tested surfaces made from the high-quality ARTICO man-made leather and textiles contain no animal-derived products.

The white open-pore natural fibre honeycomb design sustainable trim lends your vehicle interior an individual look. It blends in harmoniously while also creating exciting contrasts, thereby reinforcing and emphasising the interior design. At the same time, the trim element is an enduring quality attribute of a meticulously crafted premium product.

Refinement Package [DRP]

£2,500

Elevating your driving experience to unprecedented levels with the Refinement Package.

With AIRMATIC air suspension and rear axle steering, you experience noticeably more driving comfort and agility. The air suspension impresses with either sporty dynamics or high comfort. Thanks to rear axle steering, you benefit from particularly agile or confident handling, depending on the speed, and a smaller turning circle.

The package consists of:

- AIRMATIC air suspension
- Rear axle steering (up to 4.5°)

The AIRMATIC system includes:

- Adjustable suspension level
- Intelligent damper adjustment
- Intelligent damper control
- Intelligent level control
- Lowering the rear for easier loading and unloading

Trailer Coupling with ESP® Trailer Stabilisation [550]

£1,000

Expand your transport options: You can hitch up trailers or caravans as well as mount bicycle racks. The fully electric trailer hitch moves into position at the press of a button or swings completely back after use – without you having to get your hands dirty.

The package includes:

- ESP® trailer stabilisation
- Tow bar

When towing a trailer, ESP® trailer stabilisation can automatically intervene in critical situations. It is automatically active from a speed of 40 mph.

If undesirable swaying movements are detected, the trailer stabilisation actively dampens them with the help of wheel-specific, reciprocal brake applications. In most cases this is already sufficient to reduce dangerous vibrations. If necessary, the system also reduces the speed: for this purpose, the engine torque is reduced and the vehicle is braked over all 4 wheels. Your vehicle recognises the trailer automatically as soon as the electric plug is connected.

22kW AC Charging [84B]

£1,000

With the enhanced AC charging system, you can charge your vehicle quickly and easily with up to 22 kW (3-phase) at suitable public charging stations or wallboxes.

This shortens your charging times considerably if you have high-powered AC charging available to you.

¹The indicated values were determined according to the prescribed measurement method -Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK. Battery Electric Vehicles (BEV) require mains electricity for charging, range figures determined with the battery fully charged. These models require mains electricity for charging ²Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish fuel consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP> ³A different first year rate of Vehicle Excise Duty (Road Fund Licence) applies for new cars. ⁴The recommended on-the-road price includes the Road Fund Licence applicable to the standard model plus delivery charge (£780.00 incl. VAT), new vehicle registration fee (£55.00) and number plates (£25.00 incl. VAT). VAT is calculated at the standard rate of 20%. Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price

¹Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at www.mercedes-benz.co.uk/WLTP.

Technical Data

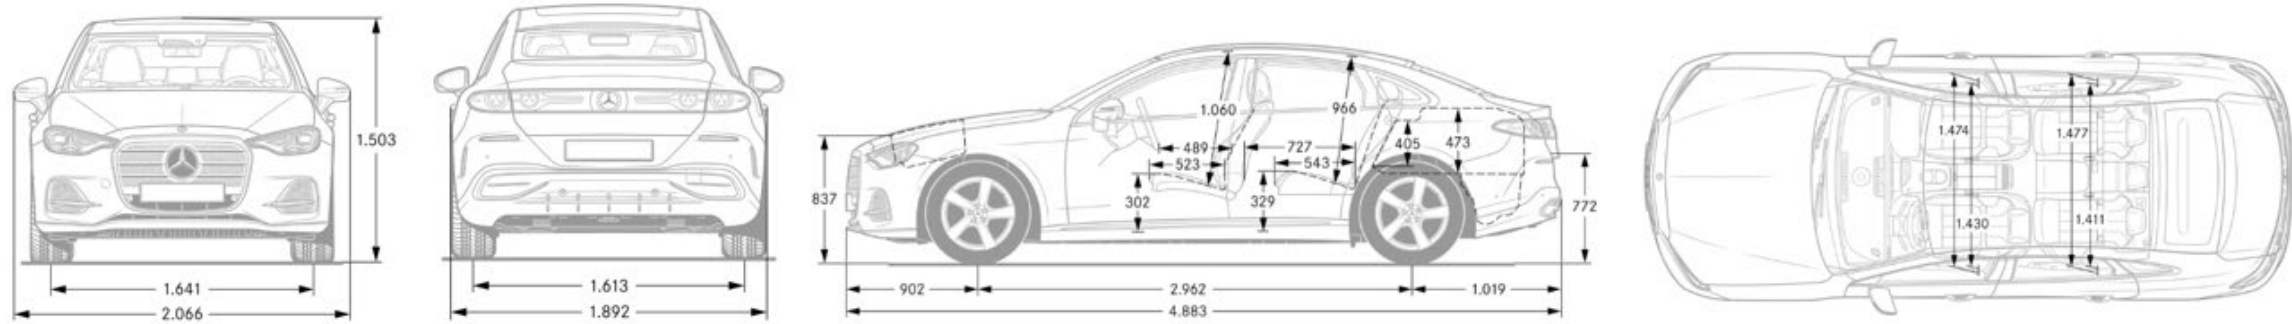

C-Class 400 4MATIC electric		
Emissions		
CO2 (g/km)	-	
Emissions standard	Euro 6-WLTP	
Powertrain		
Powertrain	Dual electric motor	
Gearbox	2 speed transmission	
Drive type	4x4 (AWD)	
Electric motor type	PSM	
Power	hp (kW)	489 (360)
Torque	Nm	800
Powertrain		
Acceleration (0-62mph)	sec	4.0
Top speed	mph	130
Battery		
Battery type	Lithium-ion	
Battery capacity (useable)	kWh	94
Battery warranty	8 years / 100,000 miles	
Battery capacity % guaranteed under warranty	70%	
Charging		
On-board charger (AC)	kW	11 (22 optional)
Charging time - Wallbox 11kW AC	0-100%	10.50 hours
Charging time - Home Wallbox 7kW AC	0-100%	15.25 hours
On-board charger (DC)	kW	330
Charging time - public rapid charger (330kW)	10-80%	22 mins
Range		
Electric Range	miles	423 - 452
Electric energy consumption, combined	Wh/km	150 - 163
Weights & Capacities		
Kerb weight	kg	2460
Permissible gross vehicle weight	kg	2,965
Boot capacity - seats up	litres	470
Frunk ¹ capacity	litres	101
Frunk ¹ capacity (ISO 3832)	litres	80
Maximum roof load	kg	75
Permissible trailer load (unbraked/braked [at 12%])	kg	750 / 1,800
Permissible tow ball weight	kg	80

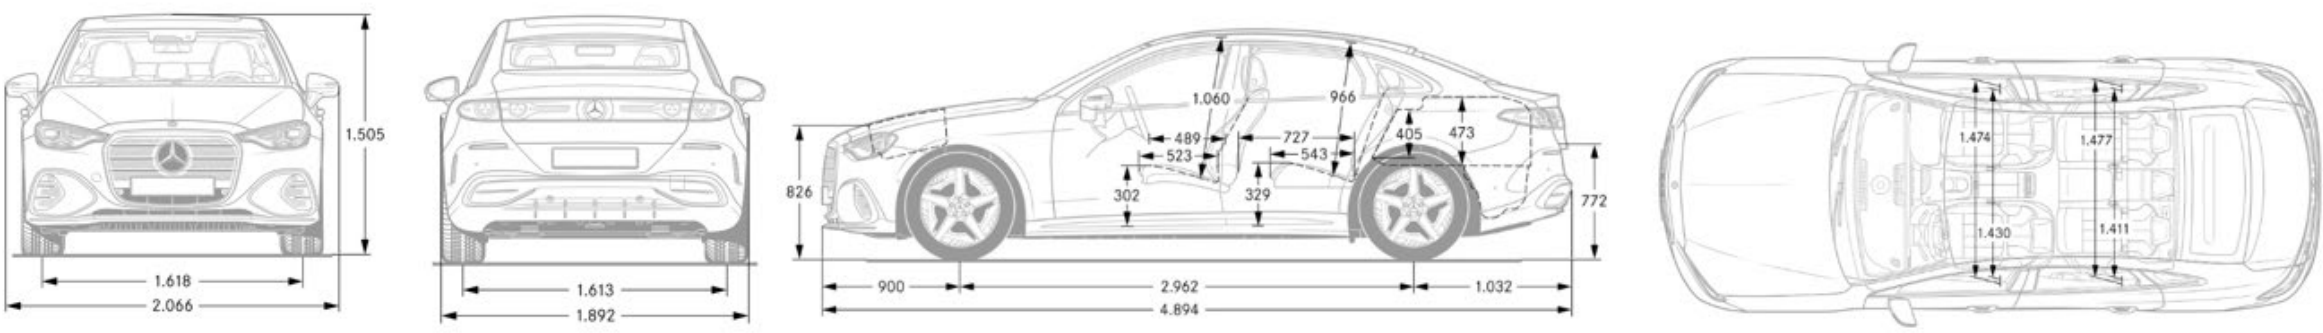

¹Figures according to Regulation (EC) No. 595/2009 in the currently applicable version. ²³Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-100% charge using a wallbox (three-phase) or standard socket (single-phase). ⁴Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-80% charge using rapid public charging at 170kW. ⁵Figures shown are for compatibility purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO2 figures can be found at www.mercedes-benz.co.uk/WLTP. Specified voltage and current values refer to network infrastructure and can be limited by the vehicle
